

## **AIM Harvest Summary - Week of 8/13/12**

Crew Leader: Kyle Jaquis

Divers: Luke Dumas, Chris Burnham

The crew started swimming from Markham Point into the North Basin finding 30 large plants mostly in the North Basin. They then line swam Deer Island finding only 12 plants on the Western tip. The crew then moved to the Narrows just south of Donaldsons on the West side of the lake and removed 6 bags. Cleared 50 plants from Fish Creek Pond then moved to Fish Creek Bay and removed 45 plants. The crew then returned to the West side of the Narrows and line swam, clearing an additional bag from the area. The crew then focused on all sides of Buck Island removing 2 full bags from the area.

**Weekly Bag Total:      9 bags              225 pounds**
