

Week of 9/10/12

Crew Leader: Kyle Jaquis

Divers: Doug Russo & Luke Dumas

40Hrs

The crew started the week with a full coverage swim of Bottleneck Bay as well as the bay North of Bottleneck finding a total of 1 bag worth of plants. The majority were pulled from the bay North of Bottleneck near the littoral dropoff. The crew then swam Fish Creek Bay and the West side of the Narrows finding 72 plants in the Bay and only 12 in the Narrows. They then swam the North, East and South sides of Buck Island including the channel finding 1 ¾ bags. The crew finished the week by swimming North Gull, the shoreline heading South into South Gull and the main productive area of South Gull Bay. A total of 117 plants were removed from the Gull areas.

Total Invasive plants removed: 3 bags

75 pounds
