

Week of 6/10/13

Crew Leader: Doug Russo

Week of: 6/10/13 - 6/13/15

Location: Upper Saranac Lake

Crew: Doug Russo, Chris Critelli, Kelvin Reynolds

Hours: 40

Safety: No Incidents

Equipment: No issues

Monday:

Swam full coverage of Square Bay swimming a tight zig-zag pattern from shore to drop off. Picked 80 plants ranging from small 2 inch single stems to larger 4 foot multi stem plants. Went over to the bay north of bottle bay and swam the deeper bassweed growth, thoroughly picking 40 large 4-6 foot multi stem plants.

Tuesday:

Began swimming the bay east of Buck Island. We found a larger patch just beyond the hazard buoys in 15 feet of water. The plants were 4-6 feet tall and had 5-10 stems. 125 plants were found, a few in the shallows. We then swam the island south of Buck finding 8 smaller plants. Moved to Gilpin Bay doing a zig-zag from shore to drop-off and also covering the rock-pile in the middle of the bay. 35 plants were found, mostly smaller single-stem.

Wednesday:

Went to South Gull Bay and line swam the bay for full coverage. 150 plants ranging from 1 foot to 4 foot, mainly all single-stem plants.

Thursday:

Started out in Little Square Bay swimming the shoreline. Decided to stay in Little Square and zig-zag the littoral zone. Picked ½ bag of plants ranging from 2 inch single stem to 5 foot multi-stem plants. Moved to Fish Creek Bay hitting the hot spots of the bay including Donaldson's. We found a small patch of 50 plants in the bass weed off of Donaldson's.

Weekly bag count: 1 bag

Recommendations: Continue maintenance on little square bay and other previous hot spots.

Week 4 Total Harvest Map
